

## **New Haven Promise Intern – *Yale Hospitality, Strategic Initiatives***

### **2023 Mentor: Dan Flynn, Director of Asset Renewal & Planned Projects**

As an organization which crafts 16,000 meals per day – our thoughtful sourcing, preparation and daily service builds the foundation of our impactful role amongst university food service organizations at the local, regional, national, and international level. We are a transformative organization that has influence at the intersection of human health, environmental sustainability, and community well-being.

Our mission is to nourish a culture in which the interwoven pleasures of growing, cooking, and sharing food becomes an integral part of each guest's experience at Yale. This mission is carried out consistently through our core values, focused on integrity, care, ownership, respect – and our unwavering commitment to excellence.

With over 23 residential and retail dining operations and dedicated catering services – our talented culinary, management and administrative staff touch the lives of **students, employees, and visitors** year after year.

Working closely with the Director of Asset Renewal & Planned Projects, this year's New Haven Promise Intern will work on an exciting new food technology project which involves configuring recipes into data that's stored into our commercial ovens' digital memories. Interns with an interest in engineering, data science, communication or the food industry will spend three months supporting this new and innovative approach to food preparation. During this time, they will also have an immersive experience into how Yale hospitality supports its **students, staff and faculty** with their college dining needs.

#### **Intern Responsibilities**

- Work with Director of Asset Renewal and Planned Projects on data audit project
- Other similar tasks as assigned.

#### **Desired qualifications**

- Attention to detail, ability to work independently/take initiative
- Reliability, we are flexible on time, but we do need someone who is consistently present
- Excellent written and oral communication skills
- Comfortable with MS Office: Word, excel.
- Effective team player
